Meng Xie

Senior Software Engineer

San Jose, California, United States

Summary

Experienced professional with expertise in Java, Azure Cloud, Cosmos DB, Docker, Kubernetes, AMQ, Kafka, and Spring Boot. Proven track record of success in developing and implementing complex software solutions. Exceptional problem-solving skills and ability to work effectively in cross-functional teams. Seeking opportunities to leverage my skills and experience in a challenging role.

Experience

Walmart Global Tech

2 years 7 months

Senior Software Engineer

July 2022 - Present (2 years 3 months)

Walmart company level Bravo.award - November, 2023

Migrate to Cosmos DB Achievement:

- 1) Removing 30% useless code
- 2) Instead of multiple data base hits we make sure no of Database hits are very less and mostly max of 2 to 3 hits and use the data for future analysis.
- 3) Optimizing database Objects based on the Memory footprints on the JVM.
- 4) Organized the Logger in better and systematic way which can decrease the footprint of the logs, decrease the cost, increase the performance.
- 5) We added better monitoring and alerts which can help us to found the issue faster and better.
- 6) Dual Sync design which helped us to make sure we have both backward compatible and forward compatibility
- 7) Data distribution evenly across the partitions which ensure we have a better balancing and decreases the cost on cosmos.
- 8) AZUL OPEN JDK 17 Upgrade
- 9) Many Utility API are been developed at the time of migration.
- 10) Integrating with one DR Click
- 11) First T0 team use AMQ and provided backup plan

Software Engineer

March 2022 - July 2022 (5 months)

San Francisco Bay Area

Walmart Caspr team cosmos db migration

Infosys

Software Engineer

August 2021 - February 2022 (7 months)

San Francisco Bay Area

work for TOYOTA TRPOMS team

oracle database migration to postgres database

maintain native SQL match new postgres database

maintain JAVA code match new postgres database

JAVA 8+Spring boot 2 +Jboss Server

Apple

Software Engineer

March 2020 - August 2021 (1 year 6 months)

Sunnyvale, California, United States

contract for Apple IS&T Caffemacs team

- Drove a brand-new international payments service from concept to production by integrating with ApplePay team's newest APIs
